PRESENTATION

Born from the unusual union between a bass drum and a snare drum, the Colle Brothers have been drumming since birth. With "DRUM BROTHERS", they offer us an original show, a performance of musical juggling full of humor.

Between frantic rhythms and poetry, the Brothers Colle cheerfully mix disciplines. Clément gives the time, Cyril arrives in time, Stéphane, on the other hand, is out of time. Everything is a source of percussion, but the artistic predispositions of the trio do not stop there: bagpipes, flute and guitar enter in the dance and the objects fly, as well the skittles as the umbrellas. With this virtuoso trio, everything is talent, fantasy and enthusiasm.

An interactive encounter that energizes, refreshes and touches. A family experience for all ages, orchestrated by the colorful brush of director Eric Bouvron.

ARTISTS

CLÉMENT COLLE

THE METRONOME

At 6 Clément started learning the drums. Later he joined a music band and continued his apprenticeship. He participated in various competitions and won the French Championship in 2009.

In 2011 he devoted himself to MUSI'COLLE together with his brothers. In 2012 he learnt the guitar. He became the multi-instrumentalist of the group and with his wands, his drums and guitar, he sets the tempo, giving colour to the show.

ARTISTS

CYRIL COLLE

THE MEDIATOR

At an early age, Cyril learnt juggling with his eldest brother, Stephane. They both got hooked on this type of performing art and they practiced it as a hobby.

As passionate music-lover, he discovered the Celtic music in 2009 and learnt the flute and later the bagpipes. He joined his brothers adding his personal touch and together they create their first professional show.

ARTISTS

STÉPHANE COLLE

THE CREATIVE

Since his early age, Stéphane loved juggling with anything he finds. At 18 he left Bordeaux for Paris. He joined the Foksabouge association where he perfected his juggling with clubs and cigar boxes.

A few years later he returned to Bordeaux with the idea of creating a show with his brothers combining drums and juggling, The MUSI'COLLE. The three brothers participated in different art festivals like the Aurillac, Fest'arts de Libourne where they won the best prize of the Off. They also appeared on Television like Gulli and M6 channels.

In 2012, Eric Bouvron discovered them. They continued their way and increased their appearances in artistic platforms in Switzerland, Germany and Spain.
